PROFESSIONAL SUMMARY

Enthusiastic BCA graduate with a solid academic background in computer applications and a passion for technology and innovation. Committed to leveraging technical skills and academic knowledge to contribute to the success of a forward-thinking organization.

SKILLS

- Programming Languages: Java
- Front-End: HTML, CSS, JavaScript, React
- Back-End: Node.js, Express.js
- Databases: MongoDB, MySQL
- Tools: VS Code, Git, GitHub, MS Office

EXPERIENCE

Intern April 2024 - May 2024
Scontinent Technologies

- Completed a final-year internship at Scontinent Technologies, specializing in web development.
- Worked on full-stack development projects using the MERN stack.
- Collaborated with senior developers and project managers to understand project requirements and deliver solutions within deadlines.

EDUCATION

Bachelor of Computer Applications September 2021 - July 2024
Triveni Institute of Commerce and Management **CGPA 8.2/10**

Class 12th June 2020 - April 2021
St. Theresa Pre-University College **CGPA 7.6/10**

PROJECTS

AI Image Generator July 2024

- Built a web application using Node.js which generates images based on textual prompts.
- Designed the UI using React and Tailwind CSS.
- Ensured data persistence and user management with MongoDB.

Geet - Full-Stack Music Web App - https://geet-vivekk.vercel.app/ April 2025

- Developed Geet, a full-stack music application with secure user authentication, song uploads, playlist management, and real-time notifications, using React, Node.js, Express, and MongoDB.
- Engineered protected API routes, file uploads with multer, JWT-based authentication, and a responsive, mobile-friendly UI; deployed seamlessly on Vercel (frontend) and Render (backend).

Portfolio Website - https://vivekk-portfolio.vercel.app/ March 2025

- Developed a responsive portfolio website using React, Tailwind CSS, and Express.js to showcase my projects and skills. Features a modern design, intuitive UX, and smooth integration across devices.
- Developed a contact form with real-time validation, leveraging Nodemailer for secure email handling and smooth user communication.
